

Take Your OSHA/PESH Refresher Training Online

Looking for a convenient and cost-effective way to fulfill your yearly OSHA/PESH training requirements? FASNY, in partnership with TargetSafety, has developed the FASNY Firefighter Safety Annual Refresher. This web-based program meets the majority of the eight training hours required of each New York volunteer firefighter*. Unlike traditional classroom-style training, it features:

- The **convenience** of taking courses when, and where, you want to—24/7
- The ability to **go at your own pace**
- 12 hours of **additional online curriculum at no extra cost**, including eight NFPA courses
- A **one-year FASNY membership**, if you aren't already a member

"We are very impressed by the new online OSHA safety training that FASNY is offering. Our fire department is now requiring all members to complete the training. . .With your program, the member can do the training at their leisure from home or one of the fire station computers."

Greg Herrmann
Fire Commissioner
Oswego Town Fire Department

In addition, if you are a volunteer fire chief, you can register your entire department for the training—at a fraction of the cost of other programs.

To Get Started

1. Go to **www.fasny.com**.
2. Click on the OSHA/PESH training link.
3. Complete the online ordering process. You can register as an individual or purchase the program for your entire department. The cost** for the course is \$9.99 for current members. Non-members pay \$19.99, which includes a year of FASNY membership.
4. Click the link in your confirmation email, which will redirect you to the FASNY Online Training Center.
5. Begin your training!

*This course does not include the equipment inspection or SCBA familiarization/inspection (approximately two hours), which by their nature are hands-on components. To ensure compliance with the full OSHA/PESH refresher, the equipment inspection and SCBA components will need to be provided and completed by your fire department training officer and/or chief and signed off by him or her.

**The FASNY Firefighter Safety Annual Refresher is normally \$75. However, FASNY is underwriting the difference for any current or future member who takes advantage of it.
