Fire Industry

NFPA 1500 Series

This series of courses is designed specifically for the fire industry and meets the NFPA 1500 code requirements. These courses were developed in conjunction with the NFPA, and specific content experts at the NFPA participated in their creation.

Hazard Communication
 Advanced HAZWOPER Awareness (Modules 1-4)
 Hazmat Spill Prevention & Control
 Hazmat Transportation
 Compressed Gas Safety
 Materials Handling, Storage, Use & Disposal
 Confined-Space Entry
 Combustible & Flammable Liquids
 Personal Protective Equipment
 Respiratory Protection
 CPR Academic
 Driving Safety
 Bloodborne Pathogens Safety
 Laboratory Safety
 Welding Safety

NFPA 1001 Series / Firefighter I&II

PreventionLink™ has a complete library of Firefighter I & II awareness and refresher level courses based on NFPA codes and standards.

Firefighter Orientation and Safety	Water Supply
Fire Behavior	Fire Streams
Ground Ladders	Vehicle Extrication
Ventilation	Building Construction
Forcible Entry Into a Structure	Portable Extinguishers
Firefighter Personal Protective Equipment	Fire Control
Protection of Evidence of Fire Origin and Cause	Fire Hose
Fire Prevention and Public Education	Rescue and Extrication
Loss Control	Fire Detection, Alarm and Suppression Systems
Self-Contained Breathing Apparatus	Fire Department Communications

NFPA 1021 / Company Officer

PreventionLink™ is developing a complete line of company officer awareness and refresher level courses based on NFPA codes and standards. Look for more new courses in the months to come.

Assuming the Role of a Company Officer	Firefighter Health and Safety
Fire Investigation	Incident Response Safety
Fire Department Structure	Fire and Life Safety Inspections
Legal Responsibilities and Liabilities	Incident Scene Communications

Emergency Response to Terrorism

This introductory guide for First Responders is essential for those who may be among the first to arrive at an incident of suspicious origin. It is intended to be a general introduction to the basic concepts for first responder awareness of a potential terrorist incident. This course consists of four training modules, each requiring approximately 45 minutes to complete.

Module I: Terrorism in Perspective—This module offers an overview of terrorism from the perspective of the First Responder.

Module II: Incidents and Indicators—This module covers recognizing suspicious incidents, key indicators, warning signs, and detection clues.

Module III: Self-Protection—This module reviews types of potential harm and means of protection.

Module IV: Scene Control, Notification and Coordination—This module focuses on the initial response to a potential terrorist incident, including arrival considerations, scene isolation, evacuation, and procedures for activating response resources.

First Responder Operations Level Refresher

This 8-hour course is designed to be a refresher for the Operations Level Responder to Hazardous Materials Incidents. The course consists of four training modules, each requiring approximately two hours to complete. The course fulfills the requirements of NFPA 472 and 29 CFR 1910.120(q).

Module I: Analyzing the Incident—This module reviews how to survey a hazmat spill or incident; how to collect hazard and response information with MSDSs, labels, and markings; and how to identify the various transport containers and storage tanks used for hazardous materials.

Module II: Planning the Response—The module will cover the chemical and physical properties of materials and their impact on storage and transport containers; response objectives, including how to assess the risk to a responder for each hazard class; and how to determine the suitability of SCBA and personal protective equipment.

Module III: Implementing the Planned Response—The module will cover the principles of site management, how to establish and enforce control zones, and tactics for emergency decontamination. It will discuss common types of releases and how to deal with them, and how to conduct defensive operations such as damming and diking and air monitoring.

Module IV: Incident Management Systems and Terrorism Awareness—The module will cover incident management systems and the first responder's role in a response plan. It will also cover the potential for terrorist attacks, typical agents used in a terrorist event, and the appropriate response tactics.

EMS Continuing Education

PreventionLink™ offers a comprehensive catalog of online EMS continuing education courses that is accepted in most states. Our courses allow First Responders, EMT-Basics, EMT-Intermediates, and EMT-Paramedics to complete their continuing education requirements in an engaging and easy-to-use format. Please note that not all TargetSafety courses are approved in all regions. For a list of approved courses in your area, please visit www.targetsafety.com.

Emergency Vehicle Operator

Online Driver Training & Compliance Program

Our Emergency Vehicle Operator courses offer departments a convenient, easy-to-use, and time-saving solution to reduce motor vehicle losses, one of the costliest but least addressed losses in the workplace.

Driver Training Curriculum

Online training courses designed to change unsafe driving behavior and reinforce key safe driving concepts. Courses have been tailored to meet the varied needs of emergency vehicle operators.

Supervisor Training Curriculum

Designed to provide supervisors with the training necessary to maintain a staff of safe and capable drivers.

Overview Guide to Implementing a Motor Vehicle Safety Program

Outlines the elements of an effective emergency vehicle safety program.

Fire Department Driver Training Curriculum

- Driver Safety Orientation
- Impaired Driving
- Intersection Safety
- Safe Backing
- Distracted Driving
- Emergency Vehicle Characteristics
- Legal Considerations
- Emergency Vehicle Operations
- Adjusting to Changing Conditions
- Defensive Driving Strategies
- The Dangers of Speeding
- Vehicle Safety and Security
- Securing Materials for Transportation
- Vehicle Inspection and Maintenance
- The Importance of Seat Belt Use
- Accidents and Emergencies

Supervisor Curriculum

- Motor Vehicle Safety Overview for Supervisors
- Personnel Selection
- Accident Investigations
- Reasonable Suspicion of Drugs for Supervisors
- Reasonable Suspicion of Alcohol for Supervisors

OSHA & Compliance

PreventionLink's™ online courses can be used to help comply with OSHA, DOT, and other federal and state regulatory agency training mandates. Complete all of your required compliance training courses online, eliminating the logistics issues inherent in traditional training methods.

Industrial Ergonomics

Employment Practices for Supervisors

This program provides an overview of **employment practices** encountered in the workplace for individuals tasked with making employment decisions, including issues of harassment, hiring and termination, discrimination, evaluation, and documentation. These courses and tools will help to ensure that you stay ahead of current issues and practices that may affect your organization and employees.

Courses

Employment Practices Overview
Interviewing and Hiring
Sexual Harassment for Supervisors
Preventing Discrimination in the Workplace
Anger, Conflict, and Violence
Dealing with Issues of Substance Abuse
Performance Management
Discipline and Termination
Understanding Employee Leave

California AB 1825 Sexual Harassment

Designed specifically to comply with the stringent requirements of **California's AB 1825 Sexual Harassment Training** law, this course is an ideal solution for any organization looking to develop and encourage a set of values in supervisory employees that will assist them in preventing and effectively responding to incidents of sexual harassment. Specifically, this program addresses federal laws regarding harassment, the consequences of harassment, practical tips for preventing sexual harassment, how to handle sexual harassment claims, and how to maintain a respectful workplace.

California AB 1234 Board of Directors and Trustees

Public servants have a responsibility to act in the best interest of the public they represent. This course introduces public servants to their ethical responsibilities when dealing with issues related to conflict of interest situations, personal financial gain, government transparency, and fair government processes. This program is designed specifically to address **California's AB 1234 ethics training** requirement for local agency officials.

Founded in 1999, TargetSafety is a pioneer and leader in web-based solutions designed to simplify and standardize risk management for organizations. The company's flagship product, PreventionLink, provides organizations with a comprehensive suite of online risk management, training, and compliance tools to help identify, prioritize, and significantly minimize risk. Today, TargetSafety is the leading provider of online loss prevention and risk management services to public entities in the United States. The company is based in San Diego, California, and has a regional office in Boston, Massachusetts.
