

EVOSmart™

Driver Training and Compliance Program for Law Enforcement

- Customized website available 24/7
- Online driver training courses for police officers and their supervisors
- Helpful SOP templates
- A Quick Reference Guide for implementing effective driver safety programs

Since 1997, more than 600 law enforcement officers have died in accidents involving motor vehicles. Even more are injured annually from vehicle-related mishaps. To prevent these tragedies, and keep your officers safe, TargetSafety has created EVOSmart, a PreventionLink Smart solution. This comprehensive online training and compliance management program was designed specifically for police departments. It features key concepts that reinforce safe driving behavior and give your officers the instruction they need to arrive on the scene unharmed. EVOSmart also features curriculum for supervisors, making it easy for chiefs, lieutenants and other managers to maintain a staff of safe, capable drivers.

Along with driver training, EVOSmart gives your department the ability to:

- **Deliver online curriculum any time**, from a customized website.
- **Upload your SOP templates** or use the templates provided within the program to create new ones.
- **Access a Quick Reference Guide**, which outlines the important elements of an effective driver safety program.

EVOSmart is a proven safety solution that was developed from leading industry standards and resource material, including:

- OSHA's Guidelines for Employers to Reduce Motor Vehicle Crashes
- ANSI/ASSE Z15.1-2006 Safe Practices for Motor Vehicle Operations

It is so easy to implement, it can be up and running in minutes. Best of all, it can be maintained with minimal effort.

About TargetSafety

Founded in 1999, TargetSafety is a pioneer and leader in web-based solutions designed to simplify and standardize risk management. The company's flagship product, PreventionLink, provides organizations with a comprehensive suite of online risk management, training, and compliance tools to help identify, prioritize and significantly minimize risk. Today TargetSafety is the leading provider of online loss prevention and risk management services to public entities in the United States.

Critical Safety Training that Will Reduce Claims and Losses

At the core of EVOSmart is an online library that includes both basic and supervisory training courses. These courses are tailored to meet the specific needs of your officers and their supervisors. Training can be accessed any time, and from anywhere there is a computer and Internet connection. In addition, EVOSmart features policy and procedure templates, which make it easy for you to implement new organizational policies.
