

PreventionLink Community Resources

Developing custom training and compliance programs for your organization is both time consuming and expensive, especially if you have to create those programs from scratch.

With PreventionLink Community Resources, you now have the ability to easily share information—including training presentations, educational videos, policies, procedures, inspection forms and more—with other TargetSafety clients and community members. Best of all, you can download, modify and assign these documents to your employees in just a few clicks of the mouse.

Benefits include:

Time and money savings

- Community Resources provides relevant results right at your fingertips.
- All of the content is “tagged” with appropriate topics and keywords, making it easy to locate what you need.
- Imported documents are free of charge and can be shared, customized and distributed to your organization.

Access to best-demonstrated practices

- Community members include the nation’s leading fire and EMS departments, schools, municipalities, risk pools and other public entities—providing you with centralized access to information and best practices you can’t find anywhere else.
- As a contributor, you will receive professional recognition for your organization’s own best-demonstrated practices.

Information updated in real time

- Community Resources is dynamic and updated in real time.
- The top videos and files are continually re-ranked as community members view and rate the information.

Private resources option

- You can always select what information you want to share and what information you want to keep confidential.
- Downloaded resources are saved in your PreventionLink Organization Resource (File) Center and may be viewed by members of your organization.

PreventionLink™

Features

A robust file-sharing application, PreventionLink Community Resources gives users the ability to:

View and Rate Resources

- Access the resource and additional information including the resource title, type and description as well as the author's and organization's profile
- Comment on or rate the resource
- See a list of related resources
- Find other resources created by the same contributors

Import Resources

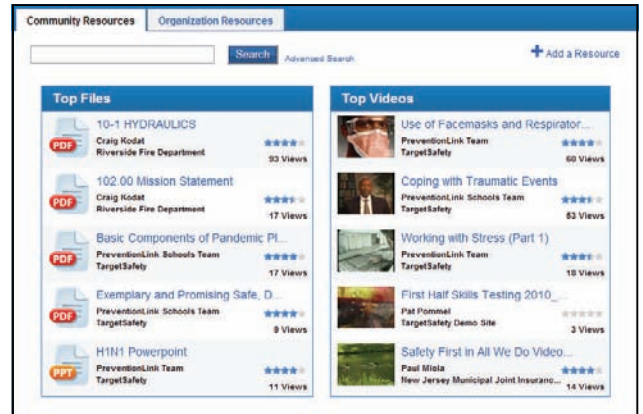

- Import any of the files, videos and other documents you find into your organization's PreventionLink website
- Modify the resource, if you want, and assign it to employees using PreventionLink's Custom Activities Manager
- Make the resource available, as is, to all users who have access to your PreventionLink Organization Resource (File) Center

Search for Relevant Resources

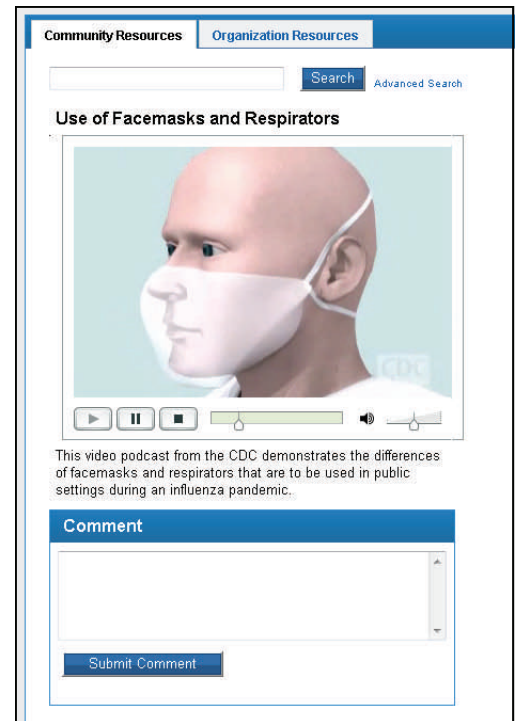

- Look for resources by typing in relevant key words
- Use Advanced Search to locate information by resource type (file or video) and relevance (views, ratings, oldest or newest)

Upload Resources

- Upload and share your organization's best practices and other innovative ideas (files or web pages) with community members
- Select appropriate topics and tags (keywords) for each resource
- View member ratings and comments on shared information

View top files and videos, search resources, or add a resource.

Review, comment on, and rate the selected resource or see a list of related resources.

PreventionLink is a comprehensive suite of online risk management, training, communications, and compliance systems.
