Using forms and spreadsheets to collect member exposure data is time consuming and inefficient. With PreventionLink Exposure Manager, your pool can automate this process:

**Saving time  
and money**

**Ensuring  
accurate data**

**Centralizing  
data access**

Completely customizable, and delivered over the Internet, PreventionLink Exposure Manager will enhance your pool's member service by simplifying the renewal process and making policy information available 24/7.

For more information or to schedule a demonstration,  
contact TargetSafety at 877.944.6372

PreventionLink Exposure Manager—available as an add-on to PreventionLink Connect—includes everything your pool needs to initiate the renewal process.

## Member Management

Centralizes member data and features tools that enable the pool to:

- Maintain member contact information
- Control member access to policy data
- Modify lines of coverage by member
- Automatically generate required schedules

The screenshot shows the 'Edit Member Profiles' page in the TSRMA system. The member is identified as 'Rancho Bernardo School District' with Member ID 12345. The form includes fields for Member Type (School District), Mailing Address (14563 Rancho Bernardo Road), City (Rancho Bernardo), State (CA), and Primary Contact information (John Bunting, 858-375-1656, johnbunting@targetsafety.com). There are also checkboxes for Program(s) like Liability, Property, and Workers' Comp.

## Renewal Process Management

Streamlines the renewal process and ensures required data is collected in the format needed:

- Member and brokers can view and edit data
- All data and forms can be exported or printed
- Pool can review changes before approving
- All changes are tracked and auditable
- Customized, pool-specific interface

The screenshot shows the 'Edit Vehicles' page in the TSRMA system. The vehicle is a 'Pierce Mfg. 105' Heavy Duty Ladder' from 2010, with a cost of \$450,000 and a replacement cost of \$450,000. The VIN is 234636456. The current mileage is 1,000.00. The form also includes fields for Owner, Type of vehicle, and Add Equipment.

## Reporting

Enables pool to distribute renewal data to support internal underwriting process, market submissions, etc. :

- Export of all exposure information to Excel
- Summary report of key data (by member, schedule, etc.)
- Custom reports based on pool needs

The screenshot shows the 'Fairview Fire Department' reporting page in the TSRMA system. It displays a table of schedules with columns for Schedules, Type, Year, Related Coverage, and Updates (0). The table lists various schedules such as Agree & E-Exp, Airport, Emp by Div, Employees (2), Equipment (2), Pollution, Property (3), Risk Mgr, Vehicles (13), and Wt CR (6).

Schedules	Type	Year	Related Coverage	Updates (0)
Agree & E-Exp	Form	N/A	Auto, GL, PJA, WC	0
Airport	Form	N/A	GL, PJA	0
Emp by Div	Form	N/A	WC	0
Employees (2)	List	2010	GL, WC	1
Equipment (2)	List	2010	GL, PJA	1
Pollution	Form	N/A	GL, PJA	0
Property (3)	List	2010	PJA, GL	1
Risk Mgr	Form	2010	GL	1
Vehicles (13)	List	2010	PJA, Auto	5
Wt CR (6)	List	2010	Auto	1
